

Test case id	Test item	Test case description	Test cases for hotel application		Precondition	Expected Result	Actual Result	Status
			Test data	Steps to Reproduce				
TC_01	Login	Verify if a user is able to login with valid username and valid password	username:admin password:admin	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter	Valid url	User should be able to login	User is able to login	Pass
TC_02	Login	Verify if a user is able to login with invalid username and invalid password	username:merlin password:merlin	1.Open the application 2.Enter invalid username 3.Enter invalid password 4.Click on login/Press enter	valid url	User should not be able to login	User is unable to login	Pass
TC_03	Login	Verify if a user is able to login with valid username and invalid password	username:admin password:merlin	1.Open the application 2.Enter valid username 3.Enter invalid password 4.Click on login/Press enter	valid url	User should not be able to login	User is unable to login	Pass
TC_04	Login	Verify if a user is able to login with invalid username and valid password	username:merlin password:admin	1.Open the application 2.Enter invalid username 3.Enter valid password 4.Click on login/Press enter	valid url	User should not be able to login	User is unable to login	Pass
TC_05	Login	Verify if a user is able to login with username and password left blank	username: password:	1.Open the application 2.Leave username as blank 3.Leave password as blank 4.Click on login/Press enter	valid url	User should not be able to login	User is unable to login	Pass
TC_06	login	verify validation message is displayed when username is left blank	username: password:admin	1.Open the application 2.Leave username as blank 3.Enter the password 4.Click on login/Press enter	Valid url	Validation meassage should be displayed	Validation meassage is displayed	Pass
TC_07	login	verify validation message is displayed when password is left blank	username:admin password:	1.Open the application 2.Enter username 3.Leave the password as blank 4.Click on login/Press enter	Valid url	Validation meassage should be displayed	Validation meassage is displayed	Pass
TC_08	Login	Verify the presence of cancel button		1.Open the application 2. Observe the presence of cancel button	Valid url	Cancel button should be present	Cancel button is not present	Fail
TC_09	Login	Verify whether the password is masked	username:admin password:admin	1.Open the application 2. Observe whether password is masked	Valid url	Password should be masked	Password is masked	Pass
TC_10	Login	Verify if we are able to login on pressing enter key	username:admin password:admin	1.Open the application 2.Leave username as blank 3.Leave password as blank 4.Press enter key	Valid url	User should be able to login	User is able to login	Pass

TC_11	Login	verify whether username is case sensitive	Username:ADMIN password:admin	1.Open the application 2.Enter the username with upper 3.Enter valid password 4.Click on login/Press enter	Valid url	User should be able to login	User is able to login	Pass
TC_12	Login	verify whether password is case sensitive	Username:admin password:ADMIN	1.Open the application 2.Enter the username 3.Enter the password with uppercase letters 4.Click on login/Press enter	Valid url	User should not be able to login	User is unable to login	pass
TC_13	Login	verify whether username &password case sensitive	Username:ADMIN password:ADMIN	1.Open the application 2.Enter the username with uppercase letters 3.Enter the password with uppercase letters 4.Click on login/Press enter	valid url	User should not be able to login	User is unable to login	Pass
TC_14	Login	verify whether the masked password can be copy and cannot be deciphered	username:admin password:admin	1.Open the application 2.Enter valid username 3.Enter valid password 4.Copy the password 5.Paste it somewhere else	Valid url	User should not be able to copy and use the password	User is unable to copy and use the password	Pass
TC_15	Login	Verify whether user cannot login after successful logout, using the copied URL of logged in session.	username:admin password:admin	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Press Logout 6. Copy URL of logged in session	Valid url	User should not be able to login	User is unable to login	Pass
TC_16	Login	verify after logout if the user clicks browser back button user is not able to Login to the same session		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Press Logout 6. Click Browser back button	Valid url	User should not be able to login	User is unable to login	Pass
TC_17	Check Box	verify whether the checkbox can be selected and deselected		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6. Check	Valid url	User should be able to select and deselect	User is able to select and deselect	Pass
TC_18	Check Box	verify whether the checkbox can be selected and deselected using keyboard		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6. Use tab button to reach the checkbox 7. Use spacebar to select/deselect the checkbox	Valid url	User should be able to make use of spacebar to select or deselect	User is able to make use of spacebar to select or deselect	Pass

TC_19	Check Box	verify whether the alignment and label of the checkbox is proper and according to specification		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6. Observe the alignment and label of checkbox	Valid url	alignment and label of the checkbox should be proper and according to specification	alignment and label of the checkbox is proper and according to specification	Pass
TC_20	Check Box	verify whether the corresponding fields (passport,visa details) are displaying while selecting the checkbox		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6. Check the passport, visa details are displayed while selecting the checkbox	Valid url	passport,visa details should be displayed while selecting the checkbox	passport,visa details are displayed while selecting the checkbox	Pass
TC_21	No. of rooms Box	verify no of rooms text box is in correct alignment		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6. Observe no.of rooms box	Valid url	no of rooms text box is in correct alignment	no of rooms text box is in correct alignment	Pass
TC_22	No. of rooms Box	verify only valid numerics are accepting	No. of rooms:ab1	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6. Enter numbers in no.of rooms box	Valid url	Only valid numerics should be accepted	Only valid numerics are accepted	Pass
TC_23	No. of rooms Box	verify alphabets are accepting	No. of rooms:ab	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6. Enter numbers in no.of rooms box	Valid url	Alphabets should not be accepted	Alphabets are not accepted	Pass
TC_24	No. of rooms Box	verify the minimum number acceptable is 1 and maximum is 159	No.of rooms: 0, <159	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6. Enter 0, numbers above 159	Valid url	Only accept numbers between 1 and 159	accepting numbers above 159	Fail
TC_25	No. of rooms Box	verify error is displaying for other than valid numbers	No.of rooms:0, <159	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6. Enter 0, numbers above 159	Valid url	Validation message should be displayed for invalid number of rooms	Validation message is not displayed for invalid number of rooms	Fail

TC_26	No. of rooms Box	verify error is displaying for alphabets and null value	No.of rooms:ab No.of rooms:0	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Enter alphabets, zero, blank	Valid url	Validation message should be displayed for alphabets and null value	Validation message is displayed for alphabets and null value	Pass
TC_27	GRC Number Box	verify GRC number text box is in correct alignment		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6. Observe GRC number text box	Valid url	GRC number text box should be in correct alignment	GRC number text box is in correct alignment	Pass
TC_28	GRC Number Box	verify GRC number is automatically getting displayed		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe whether the GRC number is automatically getting displayed	Valid url	GRC number should be automatically displayed	GRC number is automatically displayed	Pass
TC_29	GRC Number Box	verify GRC number is editable	GRC Number:123581 GRC Number:123580	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Edit the GRC number	Valid url	GRC number should be editable	GRC number is editable	Pass
TC_30	GRC Number Box	verify we can input already registered value	GRC Number:123581 GRC Number:123581	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Enter already registered value	Valid url	User should not be able to enter already registered value	User is able to enter already registered value	Fail
TC_31	GRC Number Box	verify validation message is displaying for invalid inputs	123jjjjjj	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Input values for GRC number	Valid url	validation message is displaying for invalid inputs	validation message is not displayed for invalid inputs	Fail
TC_32	Check in Count	verify check in count text box is in correct alignment		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Check in count text box	Valid url	check in count text box should be in correct alignment	check in count text box is in correct alignment	Pass

TC_33	Check in Count	verify check in count is automatically displayed		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Check in count text box	Valid url	check in count should be automatically displayed	check in count is automatically displayed	Pass
TC_34	Check in Count	verify check in count box is editable		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Confirm Check in count text box is editable	Valid url	check in count box should not be editable	check in count box is not editable	Pass
TC_35	Check in Count	verify check in count is auto increment		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Check in count text box	Valid url	Check in count should be incremented automatically	Check in count is not incremented automatically	Fail
TC_36	Name Box	verify name text box is in correct alignment		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Name text box	Valid url	name text box should be in correct alignment	name text box is in correct alignment	Pass
TC_37	Name Box	verify we can input values in name box		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Enter values in Name text box	Valid url	User should be able to input values in name box	User should be able to input values in name box	Pass
TC_38	Name Box	verify the name box is accepting only alphabets	Name:t555	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Name text box	Valid url	name box should only accept alphabets	name box is not only accepting alphabets but numbers too	Fail
TC_39	Name Box	verify error message is displayed for numeric inputs	Name:121	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Name text box	Valid url	error message should be displayed for numeric inputs	error message is not displayed for numeric inputs	Fail
TC_40	Name Box	verify error message is displayed for special character inputs	Name:@#&	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Name text box	Valid url	error message should be displayed for special character inputs	error message is not displayed for special character inputs	Fail

TC_41	Name Box	verify error message is displayed for alpha-numeric inputs	Name: test11	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Name text box	Valid url	error message should be displayed for alpha-numeric inputs	error message is not displayed for alpha-numeric inputs	Fail
TC_42	Name Box	verify error message is displayed for infinite inputs	Name: qwertyyuiopadfggh	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Name text box	Valid url	error message should be displayed for infinite inputs	error message is not displayed for infinite inputs	Fail
TC_43	Address Box	verify address text box is in correct alignment		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Address text box	Valid url	address text box should be in correct alignment	address text box is in correct alignment	Pass
TC_44	Address Box	verify we can input values in address box	address:test(H)	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Address text box	Valid url	we should be able to input values in address box	we are able to input values in address box	Pass
TC_45	Address Box	verify address box is accepting alpha-numeric values as well as special characters	address:test(H), Abcstreet123\$	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Address text box	Valid url	address box should accept alpha-numeric values as well as special characters	address box is accepting alpha-numeric values as well as special characters	Pass
TC_46	Address Box	verify error is displayed for null values	Address box:	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Address text box	Valid url	Error message should be displayed for null values	Error message is not displayed for null values	Fail
TC_47	Address Box	verify the box is expandable for larger values		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Address text box	Valid url	Address box should be expandable for larger values	Address box is expandable for larger values	Pass
TC_48	Contact number	verify contact number text box is in correct alignment		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe the Contact Number box	Valid url	contact number text box should be in correct alignment	contact number text box is in correct alignment	Pass

TC_49	Contact number	verify we can input values in contact number box	contact no:7788994455	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Enter contact number in Contact Number box	Valid url	we should be able to input values in contact number box	we are able to input values in contact number box	Pass
TC_50	Contact number	verify only numeric value is accepting	contact no:j2jjjjjjjj	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Enter alphanumeric values in Contact Number box	Valid url	only numeric value should be accepted	Both numeric and alphabetic values are accepting	Fail
TC_51	Contact number	verify error message is getting displayed for alphabets	contact no:jjjjjjjjjj	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Enter alphabets in Contact Number box	Valid url	error message should be displayed for alphabets	error message is not displayed for alphabets	Fail
TC_52	Contact number	verify validation message is getting displayed when entered input is less than 10 digits	contact no:12345	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Enter input less than 10 digits in Contact Number box	Valid url	validation message is displayed when entered input is less than 10 digits	validation message is not displayed when entered input is less than 10 digits	Fail
TC_53	Contact number	verify validation message is getting displayed when entered input is more than 10 digits	contact no:1234567891011	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Enter input more than 10 digits in Contact Number box	Valid url	validation message is displayed when entered input is more than 10 digits	validation message is not getting displayed when entered input is more than 10 digits	Fail
TC_54	Contact number	verify the display of error message for null value	Contact no:	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Leave Contact Number box blank	Valid url	display of error message for null value	No error message for null value	Fail
TC_55	Reservation date	Verify if the reservation date box displays the current valid date and time		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe Reservation date box	Valid url	reservation date box displays the current date and time	reservation date box is not displaying the current valid date and time	Fail

TC_56	Reservation date	Verify the reservation date box is editable		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Enter date,month, year & time in Reservation date box	Valid url	The reservation date box is not editable	The reservation date box is not editable	Pass
TC_57	Check in date box	Verify if Check in date box is editable		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Enter day,month, year and time	Valid url	Check in date box is editable	Check in date box is editable	Pass
TC_58	Check in date box	Verify if calendar widget is available in Check in date box		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Observe Check in date box	Valid url	calendar widget is available in Check in date box	calendar widget is available in Check in date box	Pass
TC_59	Check in date box	Verify if error message is displayed for invalid date format		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Enter day,month, year and time	Valid url	error message is displayed for invalid date format	error message is not displayed for invalid date format	Fail
TC_60	No.of days box	Verify if we can input values in No.of days box	No.of days: 1	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Input values in No.of days box	Valid url	we can input values in No. of days box	we can input values in No.of days box	Pass
TC_61	No.of days box	Verify if error message is displayed for infinite values	No.of days: 11111111	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Input values in No.of days box	Valid url	error message is displayed for infinite values	error message is not displayed for infinite values	Fail
TC_62	No.of days box	Verify if No.of days box is editable	No.of days: 11111111 No.of days:2	1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Input values in No.of days box 7.Edit the value	Valid url	No.of days box is editable	No.of days box is editable	Pass

TC_63	Check out date box	Verify if the Check out box displays the correct date corresponding to the valid input in no.of days box automatically		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Input values in No.of days box 7.Observe the displayed date in Check out date box	Valid url	Check out box displays the correct date corresponding to the valid input in no.of days box automatically	Check out box displays the correct date corresponding to the valid input in no.of days box automatically	Pass
TC_64	Check out date box	Verify if validation message is displayed for invalid date format		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Input values in No.of days box 7.Observe the displayed date in Check out date box	Valid url	Validation message is displayed for invalid date format	Validation message is displayed for invalid date format	Pass
TC_65	Room Type Box Room Number B Amenities Box Facilities Box	Verify is user is able to select room type, Room Number, Amenities and Facilities		1.Open the application 2.Enter valid username 3.Enter valid password 4.Click on login/Press enter 5.Click on Checkin 6.Input values in No.of days box 7.Select Room Type, Room Number, Amenities and Facilities	Valid url	user is able to select room type, Room Number, Amenities and Facilities	user is not able to select room type, Room Number, Amenities and Facilities	Fail
TC_66	Total Box	Verify if Total Box displays the total amount				Total Box displays the total amount	Total amount is displayed	Pass
